Relevant Experience

Management Budget Consulting Intern June 2026 - July 2026
Public Financial Management (PFM) Philadelphia PA

- Public-Sector focused consulting intern working across multiple service areas, including Economics & Tax Strategy and Fiscal Planning & Budgeting. Assisting in data collection and benchmarking analyses for competing client engagements, working directly with senior managing consultants.

Graduate Consulting Capstone Project January 2026 - August 2026
City of Philadelphia, Division of Development Services Philadelphia PA

- Completing an impact analysis on Philadelphia's Mixed Income Neighborhood zoning overlay program, highlighting future neighborhoods for policy implementation and providing insights for optimal policy design; Presenting findings in a comprehensive report and presentation for stakeholders and policymakers.

Fox Leadership Research Fellow September 2025 - June 2026
Office of Children and Families, Data Analytics Division Philadelphia PA

- Coordinating a causal data analysis project evaluating child welfare data to predict outcomes in the City of Philadelphia; Analyzing 15 years of AFCARS child welfare data, tying in supplemental data from Census, spanning over 9,000,000 observations for over 220 variables to identify the strongest predictors of child welfare.

Economist (GS- 07 to 12), Import Export Price Indexes August 2021 - June 2025
Bureau of Labor Statistics, International Price Program Remote (D.C)

- High performing Industry Analyst responsible for researching and improving data collection and analysis for the Import and Export Price Indexes. Received high rankings in annual performance reviews, including Outstanding (5 out of 5) in three years and Exceeds Fully Successful (4 out of 5) in one.
- Gathered, assessed, and analyzed monthly survey microdata from over 150 US companies across multiple machinery product areas, including automotives and computers. Improved response rates by re-establishing cooperation with delinquent respondents, piloting alternative survey submission formats, and establishing secondary data sources.
- Researched index movements on over 14 Import and Export product areas each month, detailing all atypical movements and market trends. Synthesized and presented findings to key stakeholders.
- Collaborated on technical teams to ensure minimal database downtime and the accurate syncing of multiple data environments. Tested and deployed code updates to quickly address software issues following change management principles for program evaluation.
- Published a book review in the Monthly Labor Review journal, demonstrating a thorough understanding of the BLS publication style. Received an office award as recognition for the high-quality publication: https://www.bls.gov/opub/mlr/2023/book-review/employee-ownership.htm
